

Stony Brook Medicine

Stony Brook Medicine integrates and elevates all of Stony Brook University's health-related initiatives: education, research and patient care. It includes Stony Brook University Hospital (SBUH), Stony Brook Long Island Children's Hospital and 50 community-based healthcare settings throughout Suffolk County, as well as five Health Sciences schools — Dental Medicine, Health Technology and Management, Medicine, Nursing and Social Welfare.

Stony Brook University Hospital is Long Island's premier academic medical center. With 601 beds, SBUH serves as the area's only tertiary care center and Regional Trauma Center, and is home to the Stony Brook Heart Institute, Stony Brook Cancer Center, Stony Brook Neurosciences Institute and Stony Brook Digestive Disorders Institute.

To learn more about the many services offered at Stony Brook Medicine, call (631) 444-4000 or visit stonybrookmedicine.edu.

Cancer Helpline

The Cancer Helpline is Stony Brook Medicine's telephone information service, staffed by experienced oncology (cancer) nurses who are ready to help you.

Early detection is the best way to help ensure effective treatment for cancer. The Cancer Helpline makes it easy for you to take action and increase the chances for early detection.

Sensitive healthcare professionals, who are attuned to your needs, will handle your concerns. They can help provide answers to questions about prevention, risks, screenings, detection, diagnosis, treatments, second opinions, terminology and current research. The Cancer Helpline staff has access to a comprehensive computer information network designed to quickly locate the most current healthcare information.
