The following information from your private physician documented on the attached <u>Volunteer</u> <u>Health History form</u> and <u>Medical Reference form</u> is needed to satisfy the health requirements for volunteering. Please be sure to carefully read each item listed below.

1. <u>Two MMR (Measles, Mumps, Rubella) Vaccines\*</u> OR

Positive Titers: Documented on a Lab report including Lab values for:

Mumps – IGG Rubella (German Measles) –IGG Rubeola (Measles) – IGG

\* A copy of your immunization records generated from the New York State Immunization Information System (NYSIIS) will be accepted documentation if printed and submitted by your physician's office.

2. Two Varicella (Chicken Pox) Vaccines\*

**OR** Positive Titers: Documented on a Lab report including Lab values

\*A copy of your immunization records generated from the New York State Immunization Information System (NYSIIS) will be accepted documentation if printed and submitted by your physician's office.

3. <u>Tuberculosis Screening</u>

<u>**Quantiferon Gold**</u> (a type of blood test that is used to diagnose tuberculosis). Negative result documented on a lab report (<u>dated within three months</u>).

OR

### <u> PPD – 2 Step Screening</u>

One Negative PPD (dated within 3 months) documented as follows for clearance:

- Date planted
- Result in millimeters
- Date read
- Signature, Stamp and License Number by an M.D., P.A. D.O. or N.P.

Health Assessment Information for Volunteer Applicants

 $2^{nd}$  Negative PPD (dated a minimum of one week after the first PPD) Documented as instructed above.

**Individuals with a history of a positive PPD** must provide a negative chest x-ray report. You may not substitute a negative chest x-ray report with a negative Quantiferon Gold.

4. Documentation of COVID-19 Vaccination. All volunteers are required to get vaccinated for COVID-19. Hospital Volunteers are required to be <u>fully vaccinated</u> <u>against COVID-19 prior to their first volunteer shift.</u> To be considered fully vaccinated you must have received either:

dose of J&J /Jansen vaccine.
doses of the Moderna vaccine.
doses of the Pfizer vaccine.

A booster dose of the COVID-19 vaccine is not currently required. However, should a booster dose be required communication will be emailed to your email on file.

COVID-19 vaccines are not provided by Employee Health Services. Volunteers are required to secure a vaccine through either a primary provider, or a local pharmacy.

Please provide a copy of the original card with dates, doses and locations of COVID-19 vaccines.

The NYS Department of Health (DOH) has modified the Public Health Law on the Prevention of COVID-19 Transmission by Covered Entities to require that "Covered entities shall continuously require personnel to be fully vaccinated against COVID-19, *and to have received any booster or supplemental dose as recommended by the CDC.*" The order broadly defines "covered personnel" as "all persons employed or affiliated with a covered entity, whether paid or unpaid, including but not limited to employees, members of the medical and nursing staff, contract staff, students, and volunteers, who engage in activities such that if they were infected with COVID-19, they could potentially expose other covered personnel, patients or residents to the disease."

5. Three dose series of Hepatitis B vaccine **OR** 

complete the declination that is found with our medical forms.

6. Influenza Vaccination (Seasonal Flu Vaccine)

OR

complete the declination that is found with our medical forms.

### Health Assessment Information for Volunteer Applicants

All volunteers must receive a seasonal influenza vaccine **OR** complete a flu declination form. During the period the NYS Commissioner of Health determines the influenza season is underway, <u>unvaccinated volunteers</u> **MUST** wear a surgical mask at all times while in areas where patients may be present.

Please note all medical documentation not documented on the Volunteer Health History form, from NYSIIS, or on an official lab report must contain the printed name, signature and license number of the practioner. Documentation is only accepted from an MD, NP, PA or DO. Documentation by an RN will not be accepted unless the RN or is an Employee Health or Student Health Nurse and proof of such is required.

If you do not have a positive titer or documentation of two doses of the MMR vaccine, Varicella vaccine, Hepatitis B vaccine, or you cannot obtain a PPD test, Volunteer Services will schedule an appointment for you when you submit your application at no cost at Stony Brook Employee Health Services. All other requested medical information must be completed by your physician.

### COVID Vaccinations: A copy of your immunization card is required.

Hospital Volunteers are required to be <u>fully vaccinated against COVID-19 prior to their first</u> <u>volunteer shift.</u> To be considered fully vaccinated you must have received either:

1 dose of J&J /Jansen vaccine.

2 doses of the Moderna vaccine.

2 doses of the Pfizer vaccine.

A booster dose of the COVID-19 vaccine is not currently required. However, should a booster dose be required communication will be emailed to your email on file.

COVID-19 vaccines are not provided by Employee Health Services. Volunteers are required to secure a vaccine through either a primary provider, or a local pharmacy.

## 2nd Step

## **Booster PPD Documentation**

Please have your practitioner complete the Two-Step PPD Screening by documenting the second PPD below (dated a minimum of one week after the first PPD)

Patient Name:	
Date of Birth:	
Date Tuberculin Test Planted: Date Read:	
Result: Positive mm Negativ	emm
Print Name:	Please circle applicable title: M.D. D.O. N.P. P.A.
Signature:	License #
If your <u>PPD result was positive</u> , a copy of the <u>provided</u> .	

**Office Stamp:** 

Individuals who provided a current Quantiferon Gold (dated within three months) are <u>not</u> required to complete a booster PPD.

Individuals who have had a positive PPD in the past and have submitted a chest x-ray report are not required to complete a booster PPD.

If you prefer to have the booster PPD completed by Employee Health, you may schedule an appointment directly with them. You will be provided with their contact information after you attend a new volunteer orientation session.

#### HEALTHCARE PROVIDER MEDICAL REFERENCE

Volunteer Applicant Name: \_\_\_\_\_

Date of Birth: \_\_\_\_\_

Thank you for providing a medical reference for the above referenced volunteer applicant. Please complete the two questions below. Please mark your response (yes or no). You may add remarks if you feel it is warranted. Thank you for your assistance.

Sincerely,

Kattleen hear

Kathleen Kress, CAVS Director of Volunteer Services

### **Hepatitis B Vaccine Declination**

(If you do not have documentation of a completed three dose series of Hepatitis B vaccine and do not wish to be vaccinated, you MUST sign the declination statement below)

I understand that due to my occupational exposure to blood or other potentially infectious materials I may be at risk of acquiring Hepatitis B virus (HBV) infection. I have been given the opportunity to be vaccinated with Hepatitis B vaccine, at no charge to myself. However, I decline Hepatitis B vaccination at this time. I know this continues to put me at risk of acquiring Hepatitis B, a serious disease. If in the future I continue to have occupational exposure to blood or other potentially infectious materials and I want to be vaccinated with Hepatitis B vaccine, I can receive the vaccination series at no charge to me.

Please check one box below:

- I have started my Hepatitis B vaccine series and have received \_\_\_\_\_\_ number of vaccines. I have attached evidence of initiation of the vaccine series. I understand that I will not be considered to have developed lifelong immunity to Hepatitis B until I complete the 3-shot vaccine series and obtain a positive Hepatitis B surface antibody titer. I expect to complete the vaccine series by the following date\_\_\_\_\_\_
- □ I have previously completed the 3-dose Hepatitis B vaccination series but do not have the vaccine documentation. I have the option of being revaccinated free of charge but decline at this time.
- □ The vaccine is contraindicated for medical reasons
- I have completed the Hepatitis B vaccination series twice and did not develop positive antibody titers following vaccination. I am thus considered a Hepatitis B vaccine non-responder and will submit supporting documentation (i.e. two complete Hepatitis B vaccine series AND lab reports of negative post-vaccination Hepatitis B surface antibody titers AND lab reports of negative Hepatitis B surface antigen and negative total Hepatitis B core antigen (anti-HBc). I have received counseling regarding precautions to prevent Hepatitis B and the need to obtain Hepatitis B immunoglobulin (HBIG) prophylaxis in the event of an exposure to Hepatitis B.
- □ None of the above apply. I am declining the Hepatitis B vaccine series at this time.

# DECLINATION FOR INFLUENZA VACCINATION OR CONTRAINDICATION TO INFLUENZA VACCINE MASK WILL BE

**REQUIRED** BY NYS DOH DURING DESIGNATED FLU SEASON

I \_\_\_\_\_\_\_\_\_(Name) SB ID# \_\_\_\_\_\_\_understand that due to my possible contact with patients I am at risk for contracting and/or transmitting influenza to patients and other healthcare workers. I have been given the opportunity to receive the influenza vaccine recommended for healthcare workers by the CDC. I decline influenza vaccination. I understand that in declining this vaccine I am required by NYS DOH Section 2.59 of NY Codes Rules and Regulations Title 10 to wear a mask while working in areas where patient may be present. If in the future before the end of the current influenza season I want to be vaccinated with the Influenza vaccines I can receive the vaccine at no charge if supplies are still available.
