During your stay at Stony Brook Hospital, your diet is ordered by your doctor and may change a few times due to tests, treatment or surgery.

**DIET:**

**IDDSI Level 4 (Pureed w/ Thickened Liquids)**

Your physician has ordered a Dysphagia diet for you. Dysphagia diets are designed for problems with chewing and/or swallowing. Additionally your physician may have ordered thickened liquids to a mildly thick (2) or moderately thick (3) consistency. The International Dysphagia Diet Standardization Initiative (IDDSI), has developed a global standardized way of describing foods and drinks that are safest for people with chewing or swallowing problems. The IDDSI framework consists of 8 levels (0 - 7), where drinks are measured from Levels 0 – 4, while foods are measured from Levels 3 – 7.
