

# Confidential Position Description

Stony Brook University

---

Senior Vice President, Health Sciences

**Prepared by:**

Bernard Godley, MD, PhD  
Ira Isaacson, MD, MBA  
Anne Neubauer

## The Opportunity

### Senior Vice President, Health Sciences

Stony Brook University has engaged AMN Leadership Solutions to conduct a national search for the position of Senior Vice President, Health Sciences, Stony Brook Medicine. After 11 productive years, Kenneth Kaushansky, MD, is stepping down from his combined roles as Senior Vice President, Health Sciences and Dean of the Renaissance School of Medicine, leaving the thriving institution poised for significant growth in the years to come.

Over the last 5 years, Stony Brook Medicine has grown from a solitary university hospital to a health system encompassing a pediatric hospital and 2 community hospitals on the eastern end of Long Island. Over the same period, the FT faculty numbers have grown by 50% to 1200, and the revenues from the hospitals, practice plan and IPA exceed \$2.5 Billion. As the #1 ranked public medical school in the State of New York it is part of Stony Brook University, one of 65 members of the Association of American Universities (AAU), the invitation-only organization of the best research universities in North America. SBM engages in world-class, National Institutes of Health-sponsored research programs in neurological diseases, cancer, cardiovascular disorders, biomedical imaging, regenerative medicine and infectious diseases, among many other topics; has seen a 25 percent increase in research funding since 2010; and is awarded approximately \$90 million in funded research annually. Four major past innovations by Stony Brook researchers include: 1) developing the Nobel Prize-winning technology that led to the MRI; 2) participating in the development of the technology for PET scans; 3) creating technology for 3D virtual colonoscopy; and 4) discovering the cause of Lyme disease.

Stony Brook University Hospital has been named one of America's 100 Best Hospitals for 2021 by Healthgrades – the only hospital on Long Island to receive this distinction for the past three consecutive years–this places SBUH among the top 2 percent of hospitals nationwide.

Stony Brook is the only hospital in the northeast region of the U.S., and one of only five hospitals in the nation, to achieve 2021 America's 100 Best rating in all four categories: America's 100 Best Hospitals overall and America's 100 Best in Cardiac Care, Coronary Intervention and Stroke Care.

**Quick Facts:**

- \$2.5B Annual Revenue
- Stony Brook University Hospital, 624 beds
- Stony Brook Children's Hospital, 106 beds
- Stony Brook Southampton Hospital, 125 beds
- Stony Brook Eastern Long Island Hospital, 80 beds

Reporting to the President and serving as a member of the Cabinet, the Sr. Vice President, Health Sciences will work collaboratively and in partnership with academic, hospital and clinical leadership and with community partners to ensure the continued development of a premier academic medical center and health system. The SVP will help lead and foster the strategic integration of the Health Sciences clinical activities with the research, education, and service missions across Stony Brook Medicine and the University. In this role, the next SVP will have authority over and responsibility for the success of the clinical enterprise, working in concert with and providing oversight of the clinical missions of the Schools of Medicine, Dentistry, Nursing, Health Technology and Management and Social Welfare, the system hospitals and the entire ambulatory network.

The SVP will need to lead the development of a strategic plan for Stony Brook Medicine health system growth, ensure the quality and breadth of the clinical programs, recruit outstanding clinical leadership and position Stony Brook Medicine to be successful in new payment models for healthcare. The SVP also holds responsibility for the fiscal health of all matters relating to the clinical programs in the health sciences.

The SVP must be a transformative and compelling leader whose support and passion for the clinical, educational, and research missions energize the faculty and staff, while focusing her/his efforts on a unified vision of growth and integration for Stony Brook Medicine. He/she must also be a strategic and business savvy steward of the Health System's resources, guiding it through what will almost certainly be uncharted territories of change in the healthcare and social environment. Importantly, the SVP must be viewed by all stakeholders as a strong advocate for balancing the academic, educational, and clinical missions of Stony Brook Medicine and creating synergies across the broader university. He/she will promote a culture of collaboration, communication and transparency, including commitment to improved business operations, efficient and effective use of space,

and a willingness to re-align resources with evolving strategies. Stony Brook is deeply committed to ensuring that the Health System is recognized among the best in the nation and will enable its next SVP to successfully lead the institution in that direction.

## **Job Summary:**

Scope of responsibility will include the clinical enterprise composed of:

- Stony Brook University Hospital
- Stony Brook Children's Hospital
- Stony Brook Southampton Hospital
- Stony Brook Eastern Long Island Hospital
- The Renaissance School of Medicine clinical practices & Dental Medicine clinical practices
- SBM Clinically Integrated Network
- The SBM Captive Practices, (SBCM, MHL)
- Clinical activities and future clinical endeavors of the Schools of Medicine, Nursing, Dentistry, Health Technology and Management and Social Work.

The Senior Vice President, Health Sciences will provide strategic vision and leadership to these entities and will:

- Define and implement strategies to advance the clinical missions of the Health Sciences Schools.
- Seek broad input from internal, and external constituencies as appropriate and develop a health system strategy.
- Work with clinical leadership to identify programs for further development or creation clinical strategies.
- Strongly support the educational and research missions of the Renaissance School of Medicine.
- Oversee integrated and transparent funds flow models that support all the missions of SBM and foster collaboration across all units of the University.
- Represent SBM internally and externally with the University academic community, healthcare professionals in the region, community partners and local legislators.
- Coordinate relationships among the SBM clinical affiliates.
- Work with the Development Office to garner philanthropic support for SBM programs.

## **KEY RELATIONSHIPS**

**Reports To:** Maurie McInnis, PhD, President, Stony Brook University

**Direct Reports:** CEO, SBUH (Dual report to President McInnis, in her Role as Governing Body)  
VP, Health System Clinical Programs and Strategy  
VP, Health System Finance and Business Strategy

For all clinical affairs:

- ✦ Dean, School of Medicine
- ✦ Dean, School of Dentistry
- ✦ Dean, School of Social Welfare
- ✦ Dean, Nursing
- ✦ Dean, Health Technology and Management
- ✦ Director, Cancer Center
- ✦ Director, Heart Institute
- ✦ SBM, Marketing/Communications
- ✦ SBM, Advancement

## **CANDIDATE SPECIFICATION: KEY SELECTION CRITERIA**

Given the unique multifaceted nature of the Stony Brook Health System, it is critical to emphasize that the successful Senior Vice President, Health Sciences candidate will be not only a quintessential traditional academic “triple threat”, but one who will be seen by local and national peers and stakeholders as a 21st Century Leader; one who inspires, innovates, and positively impacts the future of department, the medical center, and the University. Diversity and inclusion are essential core values at Stony Brook Medicine. We believe we do our best and most impactful work when we leverage our diverse, inclusive, and equitable perspectives. We are proud to recruit and hire talented people from a wide variety of backgrounds and experiences.

### **Board Certification or equivalent is a pre-requisite with:**

- A distinguished academic career including a leadership role within a complex academic health system.
- A track record of clinical programmatic development and growth.
- A highly regarded basic, translational, and/or clinical research background, with track record of scholarly achievements, extramural funding and impactful peer-reviewed publications.
- Clinical achievement, scholarly accomplishments, leadership aptitude and experience commensurate with appointment to the faculty at the rank of Professor.

## **Leadership & Management**

- A significant grasp of the challenging issues facing medical science and education today, as well as the dynamics of leading and team building within the confines of an integrated academic health system.
- A track record of establishing and maintaining an organizational climate that models inclusion, transparency, mutual respect, openness and clarity of purpose. This includes a visible comfort with matrixed organizational structures and a desire to interact with people at all levels in the organizations.

## **Behavioral Competencies**

- Given the integrated nature of SBM, the ability to provide leadership across the institutional landscape and to interact in a highly collaborative way with a variety of senior leaders and community and governmental stakeholders in defining strategic direction and programmatic development.

## **Personal Characteristics**

- A penchant for creative thinking, with a high-energy, open leadership style.
- Humility, an excellent work ethic, and high emotional intelligence.
- An aptitude and vision recognized for propelling programs and people forward.
- Comprehensive communication skills with varied stakeholders and the ability to lead by example.
- An appreciative style of inquiry in his/her approach to work, with a ready empathy for diverse constituencies.
- A commitment to excellence both personally and professionally with the highest level of integrity, and a reputation for compassion, fairness and objectivity.
- A collegial, inclusive and personal commitment to ensuring diversity, inclusion and equity, both in perspectives and in personnel, with the ability to bring out the best in others and develop a spirit of collaboration within and among stakeholders.

# Qualifications

Requirements will include:

- MD is required, MD/MBA, MD/MPH, MD/PhD or equivalent is preferred.
- Substantial and progressive leadership experience within academic health centers at the level of Deans office, department chair, institute director, or similar leadership role within a large academic health center.
- In-depth knowledge and recognized excellence across the spectrum of education, research, and patient care.

- Ability to effectively engage with development and philanthropic efforts.
- Ability to develop and build effective relationships with, and secure the support of, a broad range of stakeholders.
- Able to work with deans to identify and recruit high-quality talent committed to clinical excellence.
- Record of building, empowering and mentoring a strong, skilled and collaborative leadership team.
- Demonstrated ability to work with key support functions—legal counsel, Human Resources, communications, information technology, economic development, quality and safety, facilities and finance—to advance clinical programs.
- Experience with population health.
- Track record of attaining philanthropic support.
- Maintains the highest integrity at all times.
- Values diversity.

## The University

Stony Brook University is one of four research-intensive campuses within the State University of New York (SUNY) system. The 2019-20 operating budget was \$3 billion, with monies generated from a variety of sources. As Long Island's largest single-site employer, the University has over 15,000 full- and part-time employees, including more than 2,700 faculty. Stony Brook University is located approximately 60 miles east of Manhattan on Long Island's beautiful North Shore. Situated on 1,454 wooded acres, the campus encompasses 12 schools and colleges; a Research and Development Park; world-class athletics facilities, including a 12,300-seat stadium and a 4,000-seat arena; and Stony Brook Medicine, Long Island's premier academic medical center. Also, part of the University is a teaching and research campus in Southampton, New York, which is home to graduate arts programs, health sciences professional programs and the Marine Sciences Center, and a classroom site in Manhattan. In addition, Stony Brook, in partnership with Battelle, has been managing the prestigious Brookhaven National Laboratory since 1998 with a number of faculty holding joint appointments. The University enrolled 26,814 students in fall 2019 (17,909 undergraduate students and 8,905 graduate students) and offers more than 200 majors, minors, and combined degree programs. The University enjoys a strong international presence, maintaining affiliation agreements with about 100 universities in Africa, Asia, Europe, Latin America, and Oceania. International students constitute 17 percent of Stony Brook's total student enrollment.

### Research at Stony Brook

Stony Brook faculty are known for their outstanding research, scholarship, and creative activity. Faculty members are the recipients of many national and

international awards for their research, creative activity, and teaching. Notable accomplishments and recognition recently earned by Stony Brook faculty and associated faculty include\*:

- Twenty-five (25) members of the National Academy of Sciences
- Six (6) members of the National Academy of Engineering
- Six (6) members of the National Academy of Medicine
- Ten (10) members of the National Academy of Inventors
- Twenty-six (26) members of the American Academy of Arts and Sciences
- Six (6) Fellows of the Royal Society

With more than 2,500 faculty and staff engaged in research and over 2,000 sponsored awards, Stony Brook's total research expenditures in FY 2019 exceeded \$260M, with federal expenditures exceeding \$145M. Stony Brook University is home to numerous centers and institutes, including two DOE-funded Energy Frontier Research Centers, the Turkana Basin Institute, the Center for Frontiers in Nuclear Science, the C.N. Yang Institute for Theoretical Physics, and the Cancer Center. Among Stony Brook faculty are joint appointments with Brookhaven National Laboratory, where many faculty and students are involved in research activities and access unique user facilities.

The Stony Brook Research and Development Park, located on 246 acres adjacent to the main campus, has been designed as a community of innovators who build solutions to society's most pressing problems, leveraging Stony Brook's research strengths in three convergent areas: energy, information technology, and biomedical technology. The R&D Park is home to two NY State-funded Centers of Excellence in Wireless and Information Technology (CEWIT) and Advanced Energy Research and Technology Center (AERTC). State-of-the-art facilities provide resources to researchers, entrepreneurs, and users from academic, corporate, and government sectors.

Two additional research buildings will be located in the R&D Park. The Innovation and Discovery Center, which is nearing completion, will house academic research labs as well as mid-stage incubator tenants. The Institute for Discovery and Innovation in Medicine & Engineering (I-DIME) building is expected to open in 2021. This state-of-the-art lab research building will be the center for SBU's initiative in engineering-driven medicine.

The R&D Park and other research facilities across the campus continue to attract and retain preeminent faculty and outstanding students, and to produce cutting-edge research and creative activities that will secure Stony Brook's place among the very best research universities.

\* These numbers reflect the total number of members or fellows over the history of Stony Brook University. Of these, four members of the National Academy of Sciences and five members of the American Academy of Arts and Sciences are deceased.

## **Schools and Colleges**

Stony Brook University has 12 colleges and schools; five of which (the schools at the Health Sciences Center) report to the Senior Vice President for Health Sciences for clinical matters. Additionally, a number of specialized Institutes report directly to the Provost.

## **College of Arts & Sciences**

The College of Arts & Sciences is home to approximately 10,000 undergraduate and 1,800 graduate students and is made up of a broad array of academic departments and programs engaged in research and teaching in the fine arts, humanities, social and behavioral sciences, biological sciences, physical sciences, and mathematics. There are over 40 majors leading to the B.A. or B.S. degree and over 50 minors offered at the undergraduate level. For students interested in certification as secondary school teachers, we offer, in conjunction with the School of Professional Development, six combined programs of study leading to the B.A. and M.A.T. degrees. For students with an interest in advanced study, we offer, in conjunction with the Graduate School, approximately 30 programs of study leading to the M.A., M.M., M.S., or M.F.A. degree, one program leading to the D.M.A., nearly 30 programs of study leading to the Ph.D. degree, and six programs of study leading to Advanced Graduate Certificates.  
<http://www.stonybrook.edu/cas/>

## **College of Business**

The College of Business was formed approximately 13 years ago from a small management program. Seven years ago, the College began updating programs and hiring 24 doctoral level faculty to meet minimum standards toward AACSB accreditation. Currently, the College has 41 FTE faculty, 1350 undergraduate majors, 80 undergraduate majors at SUNY Korea, 320 MBA students, and 75 students in the MS programs in Finance, Accounting, and (in Seoul, South Korea) Technology Management. The College is continuing this development to achieve accreditation, attract high quality students, and contribute to Stony Brook's academic excellence. <http://www.stonybrookcob.com/>

## **College of Engineering & Applied Sciences**

Founded in 1960, the College of Engineering and Applied Sciences is home to nine academic departments: Applied Mathematics and Statistics, Biomedical

Engineering, Biomedical Informatics, Civil Engineering, Computer Science, Electrical and Computer Engineering, Materials Science and Chemical Engineering, Mechanical Engineering, and Technology and Society. As of Fall 2019, the college is home to about 4,000 undergraduate students, 1,600 graduate students, and a faculty of around 210 engineers and applied scientists. It boasts over 20,000 alumni. <http://www.ceas.sunysb.edu>

### **School of Marine and Atmospheric Sciences**

The School of Marine and Atmospheric Sciences (SoMAS) is the State University of New York's center for marine and atmospheric research, education, and public service. It consists of three Divisions: Atmospheric Sciences, Marine Sciences, Sustainability Studies. It operates two off-campus facilities, namely, the Flax Pond Marine Laboratory in Old Field, and the Marines Sciences Center at Southampton campus. Its facilities include eight vessels, including the R/V Seawolf, and a Radar Observatory. Approximately 800 graduate and undergraduate students currently work and study at SoMAS. The SoMAS faculty are internationally known for their leadership in research in atmospheric sciences, all the major disciplines of oceanography – biological, chemical, geological, and physical – and sustainability studies. <http://www.somas.stonybrook.edu>

### **Graduate School**

55 Master's and 46 doctoral programs offer students a wide range of disciplines to explore. In the National Research Council evaluation of doctoral programs, 32 of Stony Brook's Ph.D. programs were analyzed, and 20 programs ranked either in the Top 25 for their discipline or the Top 25% for disciplines that included more than 100 programs. <http://www.grad.sunysb.edu/>

### **School of Journalism**

Stony Brook University's School of Journalism is the first and only undergraduate school of journalism in New York State's public university system. Students study fundamentals but are also prepared to succeed in an evolving multimedia future, working out of the school's "newsroom of the future." All students take courses in print, broadcast, and online journalism. <http://www.stonybrook.edu/journalism/>

### **School of Professional Development**

The School of Professional Development (SPD) offers postbaccalaureate credit programs at the master's and advanced graduate certificate levels, including non-credit offerings in career development and community outreach. Students may choose from several master's degrees, including the Master of Arts in Liberal Studies, the Master of Arts in Teaching, and the Master of Professional Studies. SPD also offers advanced graduate certificates in Higher Education Administration, Educational Leadership, Human Resource Management, and in other areas related

to education and the workplace. These graduate programs in education fully articulate with NY State DOE certification and licensing requirements. <http://www.stonybrook.edu/spd/index.html>

## **Stony Brook Medicine**

Stony Brook Medicine encompasses a vibrant health sciences campus — immediately east and in direct continuity with the University’s Main Campus — that serves as home to: the five health sciences schools (*Health Technology and Management, Dental Medicine, Nursing, Renaissance School of Medicine, and Social Welfare*); *Stony Brook University Hospital*, a 603-bed nationally renowned tertiary care and safety net hospital for the entire region; and the *Long Island State Veterans Home*. Stony Brook Medicine also encompasses a new eight-story Medical and Research Translation building, which houses the new Cancer Center, and a 10-story Hospital Pavilion, home of the new *Children’s Hospital*, which offers advanced pediatric specialty care. Additionally, Stony Brook Medicine includes *Stony Brook Southampton Hospital* and *Eastern Long Island Hospital*.

The faculties and students of the five health sciences schools and the Program in Public Health report to the Senior Vice President for Health Sciences (SVPHS) for clinical matters. Additionally, the Provost and the SVPHS oversee shared reporting relationships of four departments — Biochemistry and Cell Biology, Biomedical Engineering, Biomedical Informatics, and Neurobiology and Behavior — and there are many close collaborations that have developed between scientists and educators on both campuses.

## **Arts and Culture**

Enriching the campus and surrounding community with a variety of exhibitions, lectures, performances, and cultural activities, Stony Brook University provides students and community members with an outlet for artistic expression and international cultural exchange. The Staller Center for the Arts houses a professional arts center—featuring such well-known performers as Bernadette Peters, Whoopi Goldberg, Patti Lapone, Mandy Patinkin, Renée Fleming (Gala 2019), Pat Metheny, and the Emerson String Quartet—as well as the Departments of Art, Music, and the Theatre Arts program. The Department of Music offers over 300 performances by a wide array of ensembles, including the esteemed Stony Brook Symphony Orchestra.

The Department of Art features work by faculty and students in the 5,000 square foot Paul W. Zuccaire Gallery, in addition to several exhibitions annually by professional artists. The Stony Brook Film Festival presented by Island Federal Credit Union each summer attracts thousands of film goers to see the best in new independent films. The Charles B. Wang Center, opened in 2002, celebrates Asian cultures, and is dedicated to presenting the public with a multifaceted,

intellectually sound, and humane understanding of Asian and Asian American cultures, and their relationship to other cultures.

The Tabler Center is the facility closely associated with the Undergraduate College of Arts, Culture and the Humanities and offers a venue for student productions, activities, and programs that can take advantage of the digital media facility, performance space, and exhibition gallery.

Stony Brook Southampton offers students graduate programs in creative writing, children's literature, podcasting, and film. The Southampton program welcomes talented writers whose writing is expressed in any form – from novels, poetry, and scripts to scientific, technological, and cultural analysis.

## **Libraries**

Stony Brook University Libraries is the largest academic research library on Long Island serving the University population and the State University of New York system. The Library is also a resource for the local community, state-wide, and nationally and internationally. Known for a wide-range of print and digital resources and world-renowned special collections, the University Libraries belong to the Association of Research Libraries (ARL), with a Health Sciences Center Library that is a member of the Association of Academic Health Sciences Libraries. The collection exceeds 2 million volumes, including e- books, print, streaming media, electronic holdings of scholarly journal subscriptions, microforms, music recordings, and a sizable map collection.

The SBU Libraries include eight distinct facilities, including the recently renovated and flagship Melville Library, Chemistry, Health Sciences, Marine and Atmospheric Sciences, Math/Physics, Music, Southampton, and SUNY Korea-SBU campus. Currently at the start of a renewed strategic plan, the faculty and staff are a talented and diverse group sharing in the mission and vision of the Libraries. Librarians hold full faculty status and rank and participate at all levels of the University. The Libraries are currently migrating to the new Library Services Platform, Alma with Primo VE as its discovery solution. Assets of its actively growing institutional repository and digital collections are managed by Omeka, Bepress Digital Commons, DSpace, and CONTENTdm. The Libraries maintain memberships and affiliations in arXiv, Association of Research Libraries, Center for Research Libraries, SUNY Connect, DuraSpace (as a SUNY member), the Council on Library and Information Resources, Digital Library Federation, Coalition of Networked Information, EDUCAUSE, Inter-university Consortium for Political and Social Research, Roper Center, OCLC Research Library Partnership, ORCID through the National Network of the National Libraries of Medicine, and locally with the Long Island Library Resources Council.

## **President Maurie McInnis**

Maurie McInnis started her tenure as President of Stony Brook University in July 2020. She previously served as the executive vice president and provost at The University of Texas at Austin. As the chief academic officer for the University of Texas at Austin, Dr. McInnis led strategic planning for the university's academic mission, which includes academic programs and initiatives across 18 colleges and schools, serving and supporting more than 51,000 students and 3,000 teaching and research faculty. She was responsible for the budget for the university's academic division, managing 1.8 billion of the institution's 3.1 billion-dollar budget. She was also deeply involved in the university's fundraising efforts, leading a team of development officers.

Additionally, Dr. McInnis oversaw the university's libraries and museums, archival collections, research centers and academic support units. During her tenure at UT Austin, Dr. McInnis invested in numerous student and faculty support programs, including the Texas Advance Commitment to expand access to higher education for Texas families, and the Executive Management Leadership Program to provide faculty and administrators the opportunity to develop leadership skills helpful in academic leadership positions. Through strategic budgeting and strategic initiatives, she focused efforts on recruiting and retaining exceptional faculty.

While at UT Austin, Dr. McInnis made significant advancements and investments in equity, diversity and inclusion initiatives. She created the new position of Vice Provost for Diversity and spearheaded efforts to create school- and college-based diversity and inclusion committees and chief diversity officers.

Dr. McInnis served as the executive vice president and provost of UT Austin from 2016-2020. Previously, she spent nearly 20 years at the University of Virginia, ultimately as the vice provost for academic affairs. As a renowned cultural historian and author, McInnis's academic scholarship has focused on race, slavery, and power in the American South. She has published extensively on American art history, including five books on the subject. *Slaves Waiting for Sale: Abolitionist Art and the American Slave Trade* (University of Chicago, 2011) was awarded the Charles C. Eldredge Book Prize from the Smithsonian American Art Museum for outstanding scholarship in American Art. She recently published, with Louis P. Nelson, *Educated in Tyranny: Slavery at Thomas Jefferson's University* (University of Virginia Press, 2019).

She earned her bachelor's degree with highest distinction in art history from University of Virginia, and received her master's degree and Ph.D. in art history from Yale University. Dr. McInnis is married with two children.

## The Community

Stony Brook is a suburb of New York City and is in Suffolk County and is one of the best places to live in the state. Living in Stony Brook offers residents a rural feel and most residents own their homes. In Stony Brook there are a lot of restaurants, coffee shops, and parks. The public schools in Stony Brook are highly rated.

When you think of the many potential places to live, work, and raise a family in the United States, there are obviously a number of great places from which to choose. However, there is one very special corner of the world that stands out like a brilliant gem in comparison to other locations. Suffolk County

The spacious county covering the eastern two-thirds of Long Island, New York called Suffolk County. Living in Suffolk County, Long Island can best be described as unique and unforgettable in a highly positive sense. Why else would so many people raised as children in Suffolk County, only to have life responsibilities move them to other parts the United States, still proudly refer to themselves as Long Islanders and genuinely miss living there? The simple fact is that there is a unique bond that people feel to this beautiful place that keeps them connected to their Suffolk County roots for life.

For those who are considering and weighing out the possibility of living in Suffolk County, Long Island, consider the following benefits of calling Suffolk County your home:

**The strong sense of community:** The towns and villages of Suffolk County each carry a very distinct sense of history, community pride, and love for Main Street that draws residents together around special events, activities, and social gatherings. Special holidays such as Memorial Day and Fourth of July are warmly celebrated by families in each community in their own unique style, and with a significant level of neighborly togetherness and camaraderie.

**The convenience of local commerce:** Whether you need to go to the grocery store, want to browse the stores on Main Street or at a mall, are looking to find a good Italian restaurant for date night, are in search of the ultimate breakfast bagel, or simply are craving a good strong cup of coffee, you won't have to travel very far to find it. The layout of Suffolk puts all of the commerce you want and need within just a few miles of your home.

**The finest shoreline anywhere:** Suffolk County can be referred to as an outdoor playground. Bordered by water on both its north and south shores, a family can choose from several waterfront locations that are simply unrivaled in their beauty, serenity, and offerings of recreational fun. The array of coastline opportunities enjoyed by Suffolk's residents includes the following:

- Some of the most pristine, white-sand ocean beaches anywhere on the East Coast, ranging from Fire Island to the world-famous Hampton region of eastern Suffolk.
- The beautiful Great South Bay and Suffolk County's south shore communities where you can park your car and watch the sunset as you gaze out over the water, or go out on the water by accessing a ferry ride to Fire Island.
- The majestic north shore of Suffolk County that allows access to beautiful picnic places on Long Island Sound.

**The diverse array of cultural experiences:** Looking for specific events, activities, and places to visit? You can find just about anything to suit your cultural tastes in Suffolk County. From minor league baseball to art galleries and wine-tastings at vineyards producing some of the finest wine anywhere in the United States, there is something for everyone here.

One visit to Suffolk County will provide a sample picture of the wealth of opportunities found here for work, play, adventure, and family. Suffolk County truly is a unique, satisfying, and enjoyable place to call home.
