RENAL DIET

Your physician has ordered a potassium restricted diet for you. A sodium, protein, phosphorus and/or fluid restriction may also have been ordered.

- Potassium is a mineral found in most foods especially fruits, vegetables and many dairy products and therefore these foods are limited on this diet.
- Sodium is also found in most foods and is especially concentrated in salt, processed and convenience foods such as cold cuts, hot dogs, sausage canned soups and TV dinners
- Protein is found mostly in meats, poultry, fish, dairy products and legumes. Vegetables and grains provide smaller amounts.
- Phosphorus is abundantly found in dairy products, nuts, legumes, meats, poultry, and fish.

Room Number: _____ Date: _____

Name: _____

Diet: _____

How to Place an Order

1. Dial 8-DINE (extension 8-3463) between the hours of 7 am and 7 pm.
2. Identify yourself to the Room Service Associate, who will verify your name, room number, and the diet ordered by your physician.
3. Place your order. Your specially prepared meal will be served to you within 90 minutes of your request.

The Department of Food and Nutrition is here to provide you with excellent service. Feel free to let your Room Service Associate know how we can help meet your food service needs.

SPECIAL / RESTRICTED DIETS

Please note that not all menu items are appropriate for all diets. If you are on a special or restricted diet, our Room Service Associate will assist you with your meal selections.

For your safety, we will accept your menu selections only after your physician has entered your diet order.
